

Thorney Island Primary School Curriculum Intent

Our curriculum aspires to instil a lifelong love of learning. At Thorney Island Community Primary School, we aim to offer an exciting, challenging curriculum which is ambitious for all learners. Through our curriculum we develop essential knowledge, skills and understanding which will enable pupils to achieve their potential. Our curriculum encompasses not only the formal requirements of the National Curriculum but goes beyond to ensure that our pupils are exposed to rich and varied experiences. Our aim is to enrich every child's school experience by creating an environment where they are encouraged to succeed. We believe strongly in using sensory and/or first-hand experiences to engage pupils in their learning. We want our pupils to experience a curriculum which enables them to be confident, resilient, innovative, respectful and have a strong sense of community so that they are prepared to make a positive contribution to society.
